## REDEFINES THE GENRE OF MULTI-PURPOSE SEATING

by **Senator**

Design PearsonLloyd

With the development of the Ad-Lib family we set out to redefine the genre of multi-purpose seating as we recognised changing needs.

The Stool version with its five star base and glides provides a solution for ad hoc touch down working environments, as well as team based project meeting environments and media presentation environments.

The diversity of finish specification options together with the upholstery options give Ad-Lib a truly varied palette.
